

## Medications covered by MESSA Choices with 3-Tier Rx and MESSA ABC with 3-Tier Rx with and without mandatory mail

Use this list to find information about drug coverage and therapeutic options. This list is ordered alphabetically and includes generic and brand name drugs. Drugs are identified according to their tier placement; prior authorization (PA), step therapy (ST) or quantity limit (QL) requirements are noted where applicable.

We encourage you to talk to your doctor to find the right drug therapies that your health plan covers.

This chart contains tier information for Choices plans and ABC plans. Please refer to the appropriate column for medication details.

If your 3-Tier Rx plan includes mandatory mail, please refer to the [list of long-term maintenance medications requiring home delivery](#) to see if your drug requires home delivery.

	Up to 34-day supply	90-day supply
Specific preventive medications are covered 100 percent with no deductible required. Age and gender limits apply. ***ABC plans have a list of specific preventive medications in addition to those mandated by federal law.	No cost to you	No cost to you
<b>Tier 1</b> Generics	\$10 copayment	\$25 copayment
<b>Tier 2</b> Most brand drugs with no generic equivalent	20 percent coinsurance \$40 minimum - \$80 maximum	20 percent coinsurance \$100 minimum - \$200 maximum
<b>Tier 3</b> Most brand drugs with a generic equivalent or therapeutic alternative	20 percent coinsurance \$60 minimum - \$100 maximum	20 percent coinsurance \$150 minimum - \$250 maximum

*Note: The amount you pay for brand name medications varies because coinsurance is based on the price of the drug when it is filled. If you obtain a Tier 3 drug when a Tier 1 drug is available, you will pay the Tier 3 coinsurance plus the difference in cost between the Tier 1 drug and the Tier 3 drug. These drugs are identified with an asterisk (\*) in the list below. A drug may switch from one tier to another. Up to a 90-day supply of insulin may be obtained for the same payment as a 34-day supply from any in-network provider.*

This list is current as of November 13, 2017. It is subject to change without notice. If you have a question about any drug, call MESSA Member Services at 800.336.0013.
